

DID YOU KNOW...?

THINK **BOILER RENTAL**

Our Rental Fleet keeps getting bigger & better!

75K PPH Boiler, 750 PSIG, 750°F

NEW

Mobile Water Treatment Unit

THINK **VICTORY ENERGY**

Are you prepared?

In an industry where timing is everything, being prepared is crucial. Victory Energy supplies cost-effective mobile boiler rental units for virtually any utility, institutional and industrial steam application.

Our fleet of trailer-mounted boilers and water treatment systems range in size from 20,000 PPH to 150,000 PPH with operating pressures from 100 PSIG to 750 PSIG.

Victory Energy's NEW Drop-N-Go Delivery System is highway-legal and easily dispatched.

Most units are mounted on customized, highway-legal trailers so they can be dispatched directly to any job site, quickly and safely.

Because our mobile boiler systems are essentially self-contained, our customers only need to connect to an electrical power source, fuel source, water source and the steam header.

If your plant or facility isn't set up for a rental boiler, please ask about our emergency steam docking station. We provide 24-hour phone service and 24-hour boiler-technical support services and dispatching.

Victory Energy's mobile water treatment systems include deaerators, water softeners, boiler feedwater pumps and a chemical treatment system.

We've Got You Covered!

Ask about our preventative maintenance program. It's called Pro-Guard™ and it's new from Victory Energy.

For more information, call: **1-877-783-2665.**
